### **Your Rights Regarding Electronic Health Information Exchange**

KU Medical Center participates in the electronic exchange of health information with other healthcare providers and health plans in the State of Kansas through an approved health information organization (HIO). Through our participation, your PHI may be accessed by other providers and health plans for the purposes of treatment, payment, or health care operations. The approved HIO is required to maintain safeguards to protect the privacy and security of PHI. The approved HIO may only allow authorized personnel to access PHI through the HIO.

Under Kansas law, you have the right to decide whether providers and health plans can access your health information through an HIO. You have two choices. First, you can permit authorized individuals to access your PHI maintained through an HIO for treatment, payment, or health care operations. If you choose this option, you do not have to do anything.

Second, you can restrict access to your PHI maintained through an HIO. To do so you must submit a request to opt out of HIE through the Kansas Health Information Exchange, Inc. (KHIE), which can be done by visiting <http://www.kanhit.org>. For more information on how to opt out, call the KHIE Support Center at (785) 296-0461. You can restrict KUMC from making your PHI available to the HIO by following instructions at the section above, "Right to Request Restrictions". Even if you restrict access through (or opt out of participating in) an HIO, providers and health plans may share your information through already available other legal means without your specific authorization.

Please understand your decision to restrict access to your electronic health information through an HIO may limit your health care providers' ability to provide the most effective care for you. By submitting a request for restrictions, you accept the risks associated with that decision.
